

# The crimes of the Tagut... and the return of the death squads

-May Allah preserve him-

It appears to the wise observer of the policy of the rotten Algerian regime, the occurrence of a fundamental change in its dealing towards the current events in Algeria, either the matter was related to the mujahidin and their supporters, or the youth rebelling against the injustice, who is demanding its right in housing, employment and decent life, which suggests of the return of the death squads to work, and spreading terror amidst the secure citizens in the remote villages, mountains and major cities, and scare the rebellious youth to dissuade them from demanding their legitimate right in a decent life.

The recent events that occurred in the province of Skikda when the joint repressive forces (gendarmerie and intelligence) conducted a wide arrests campaign amidst the oppressed in the villages of that city, for trumped-up charges that cannot be considered suspicion, to be tortured and humiliated after that, even that they asked from many of them to imitate the voices of donkeys and dogs – may Allah honor your status – to increase their humiliation, before keeping them under judicial control for no reason, and that operation was conducted under the supervision of the notorious intelligence squads.

As for the demonstrating youth for their right in a good decent life, the way of dealing with them (in the recent gathering in the province of Oum El-Bouaghi) retrieved the memories of the painful events in the beginning of the nineties, when the intelligence tried to assassinate one of the leaders of the Change Movement by overturning his car in a malicious way, and declaring after that his death in a painful car accident, as it deliberately spread its elements in civilian clothes in the gathering arena with hidden knives to stab tens of demonstrators, and many of them are still in the hospitals... all that amidst a weird media silence, which reminds of the years of suppression, abduction and assassinations in the mid-nineties of the past century.

The obligation of the media is to expose these crimes, not to conceal or hide it behind the imaginary victories of the agent army, and discovering the sleeping cells which are only present in the heads of the two criminals Tartaq and Tawfiq and their lackeys.

The return of this policy to the Algerian arena confirms the following:

- 1- The end of Bouteflika and the policy of hypocrisy that was followed throughout his reign.
- 2- The failure of the agent Algerian regime to understand the new generation and its legitimate ambitions and aspirations.
- 3- Floundering of the generals' regime in confronting the local and regional situation resulting from the growing of the Jihadi movement in North and West Africa, and the revolutions of the peoples against the oppression, arrogance, plundering and marginalization.
- 4- Return of the intelligence to the interface and with it the eradication security solution to save the regime which is about to collapse after the truth revealed and the facts appeared clearly to the observer.

Before this dangerous situation which the country has reached and the return of the death squads to the first criminal policies of the nineties we call the Muslim Algerian people to the following:

- 1- Standing in one rank in the face of the death squads and repelling them as a collective group in every raid.
- 2- Recording the raids and abductions and broadcasting them through the media and internet.
- 3- Holding demonstrations and protests after every raid or abduction, to expose them in front of the local and global public opinion.
- 4- Boycotting these criminal squads and not aiding them in their oppression and criminality so that the Muslim people don't be implicated in killing its sons and abducting them and bereft their families with their own hands.
- 5- The return of the regime of injustice, bribery and corruption to the policy of brutal suppression and assassinations is the beginning of its end Allah willing after its reality became exposed and its corruption and lying unrevealed to the public and private and its resorting to this dirty methods is only a proof for its bankruptcy and we send glad tidings to our Muslim Ummah in Algeria of the freemen that the era of the direct and indirect French occupation is in demise and decline because Muslim Algeria as Abdelhamid Ben Badis rahimahullah said: "It isn't France, and doesn't want to be France, and it cannot be France even if it wanted", the future in this country is for Islam no matter how much the enemies united and allied with the agents (and Allah is the master of His affair, but most people do not know).
